Profile

Data engineer with two years of fixture-only experience. All details are fictional.

Experience

Harbor Lab — Data Engineer 2024–2026

- Built three reproducible data pipelines with documented validation rules.
- Reduced a synthetic daily fixture from 12 manual steps to 4 checked steps.
- Preserved original records and logged excluded input rows.

Education

Example University — BSc 2020–2024

Skills

Python, SQL, versioned datasets, reproducible reports.
